STONE CHIP PROTECTION TECHNOLOGY

XPEL ULTIMATE - VEHICLE PAINTWORK PROTECTION AGAINST STONE CHIPS & CORROSION

Helps maintain the professional appearance of your vehicles - Protects you expensive investment

XPEL ULTIMATE PAINT PROTECTION FILM

We had Car Bra's in the past, now we have the *Xpel Ultimate Paint Protection Film*:

- **Optically clear, zero orange peel finish leaves the film virtually invisible**
- **Stain & Discoloration Resistant - bird dropping, air pollution and road grime will never leave the film stained or yellow. Unlike lower quality alternatives.**
- **Self healing - the advanced clear coat heals over time., eliminating swirl marks and other fine scratches.**

PAINT PROTECTION FILM IS APPLIED TO:

Bonnet and bumper bars
Rocker panels
Fenders
Guards
Side rear view mirrors
Headlights
Bus and coach front panelling
Boats

PROTECTS AGAINST:

Stone chips
Road debris
Salt
Scuffs
Road grime
Bumper scuffs
Vehicle scrapes
Protect your vehicles resale value
Bird dropping

Can be done at your location

FRONT & BONNET PROTECTION FOR TOURING IN COUNTRY AREAS AND NATIONAL PARKS ON DIRT ROADS

COMMON APPLICATIONS

- **High performance cars.**
- **Customised vehicles resulting in stunning paint jobs.**
- **Interstate buses - the low frontage of these vehicles makes them particularly susceptible to stone damage on country roads.**
- **Caravans are subjected to damage from the towing vehicle.**
- **Newly purchased vehicles direct from the dealership.**
- **Private or fleet owners intending to replace the car after a short time frame or low number of kilometres.**
- **Vehicles which travel country roads or areas of development with roadworks. Projectiles are thrown by vehicles travelling in both directions.**
